SUMMARY

As a dynamic frontend developer with a passion for crafting immersive user experiences, I've spearheaded projects like the Van Life, Hyra app, revolutionizing how users engage with travel. With a robust skill set encompassing HTML, CSS, JavaScript, Firebase and React, I thrive in pushing boundaries and delivering pixel-perfect designs. Let me bring my proven track record of innovation and expertise to your next venture, where creativity meets functionality, and user satisfaction reigns supreme!

EDUCATION

B.Tech in chemical Engineering

2023

[Ladoke Akintola University of Technology](#)

PROJECTS

Hyra App

A web application for kids

- A web app that teaches kids about religion
- The purpose of the Hyra App seems to be educational, specifically targeting children to teach them about religion.
- The app likely includes interactive features or content designed to engage children and help them learn about different aspects of religion in an accessible and entertaining manner.
- It include games, quizzes, stories, or other interactive elements to make the learning experience enjoyable and informative for children.

🔗 hyrapp.vercel.app

Van Life

A web application that describes the type of vans we have.

- Users can navigate through the website to explore various models of vans, their features, specifications, and possibly pricing information.
- The website might help people interested in purchasing vans to compare different models and make informed decisions based on their preferences and needs.
- It aims to provide a user-friendly interface for browsing and accessing information about vans, potentially catering to van enthusiasts or individuals considering van life as a lifestyle choice.

🔗 vanfrontend.vercel.app

Quiz Application

web application to test human intelligence

- The project aims to provide an engaging and educational experience for users while testing their knowledge on various subjects.
- The quiz project is a web application designed to entertain and challenge users of all ages with a variety of quizzes covering diverse topics.
